

OFF-GRID

GETA 1.5-6K (Single-Phase)

- Max. PV input voltage 500V
- Wide voltage compatibility: Supports 12V, 24V, and 48V battery systems
- Battery activation via PV and utility grid
- Dual outputs for intelligent load management
- Real-time 24/7 remote monitoring
- Flexible operation modes to meet diverse energy needs
- EQ function for enhanced battery performance and longevity
